SUMMARY

DevOps Engineer with hands-on experience in Kubernetes and AWS infrastructure. Focused on infrastructure automation, reliable application delivery, and continuous improvement.

EDUCATION

B.Sc., Computer Networks and Data Communications 2022 – 2026
University of Information Technology - VNUHCM 8.75/10.0 CGPA
Relevant coursework: Cloud Computing, DevOps, Network and System Administration, Distributed Systems

WORK EXPERIENCE

FPT Software, Ho Chi Minh City: DevOps Engineer Nov 2025 – Present
- Contributed to migrating 20 services from Nomad on AWS EC2 to Amazon EKS by adapting YAML deployment configurations to platform standards.
- Configured AI-assisted workflows for YAML conversion and application deployment, and configured GitHub Actions CI/CD using shared modules.
- Investigated production incidents using Amazon CloudWatch and Datadog, resolving some independently and collaborating with the team on the remainder.

Axon Active, Ho Chi Minh City: Junior ICT Engineer Aug 2025 – Oct 2025
- Provided IT support (L1/L2), account management, and endpoint troubleshooting.

TECHNICAL SKILLS

Cloud & IaC: AWS, Terraform
CI/CD & Containers: Git, GitHub, GitHub Actions, Jenkins, ArgoCD, Docker, Kubernetes
Cloud Platforms & Monitoring: AWS EC2, Amazon EKS, Nomad, CloudWatch, Datadog
Networking & OS: TCP/IP, VLAN, Routing, Linux

ACADEMIC PROJECTS

ROOT CAUSE ANALYSIS IN MICROSERVICES June 2026
Team Size: 2
Built MyRCA, an unsupervised two-step RCA framework for microservices via distributed tracing. *Project Report*
- Built and deployed a microservices root-cause analysis framework using distributed tracing data and Kubernetes, enabling automated diagnosis of service failures.
- Implemented the anomaly detection pipeline in Python and ranked root-cause candidates using Causal & Jaccard scoring, achieving F1 0.877 and A@1 0.909.

End-to-end DevOps Pipeline - Ranked 1st in class June 2025
Team Size: 2
Deployed chat microservices app on AWS with Terraform, Jenkins & ArgoCD. *GitHub*
- Provisioned AWS infrastructure with Terraform and deployed a microservices application using a full end-to-end DevOps workflow.
- Configured CI/CD pipelines with Jenkins and ArgoCD and managed Kubernetes manifests to support automated delivery and environment consistency.

AWARDS AND CERTIFICATES

NET Challenge 2024 – Champion & Team Leader Dec 2024
Led the team to 1st Prize among 109 teams nationwide (Networking & Cloud).
Academic Scholarship – UIT-VNUHCM 2023–2025
Awarded for consecutive excellent academic performance.
AWS Certified Solutions Architect – Associate Jan 2026
CCNA Aug 2024
